

**48875-01 Seminar: Neue Literatur auf dem Gebiet der Naturschutzbiologie
HS2017**

jeweils Fr. 14.15-15 Uhr in NLU-Gebäude,
St. Johannis-Vorstadt 10, Hörsaal

Datum	Artikel	Presenter
22.09.2017	Extinction debt in plant communities: Where are we now? Halley et al. 2017. J Veg Sci 28: 459-461	Sandro Meyer
29.09.2017	“Increasing awareness” Pyke 2017. TREE 32: 391-394 & Begon 2017. TREE 32: 394-396	Laura Vogt
06.10.2017	Presentations	Candidates for open PhD position
13.10.2017	Invasive plant promotes native predators. Smith-Ramesh 2017. Ecol 98:751-761	Sandro Meyer
20.10.2017	Introduced threatened species. Gibson & Yong 2016. Front Ecol Environ 15: 35-41	Vera Lorenzetti
27.10.2017	Horizon invasives. Ricciardi et al. 2017. TREE 32: 464-474	Luca Gaggini
03.11.2017	Response of bird and anuran songs to noise pollution. Roca et al. 2016. Behav Ecol 27:1269-1274 and replies	Laura Vogt
10.11.2017	Industrial noise and bird nest site selection. Kleist et al. 2017. Ecol Appl 27:20-273	Juilliette Recher
17.11.2017	Anthropogenic noise and foraging. Luo et al. 2015. Global Change Biol 21: 3278-3289	Vital Heim
24.11.2017	Dies academicus	--
01.12.2017	Trial talks for joint conference by BES, GfÖ etc.	Several presenters
08.12.2017	Plant-soil feedback Smith et al. Smith-Ramesh & Reynolds 2017. J Veg Sci 28: 484-494	
15.12.2017	Climate change and biodiversity redistribution. Pecl et al. 2017. Science 355:1389	Vera Lorenzetti
22.12.2017	To be announced later
